It is with great sadness that I relay the news of the death of Edward (Ed) Chaplin who passed away at home on 21st April 2016. Ed's contribution to the hobby has been remarkable; not only did he generously help with the creation of this website, his willingness to share his in-depth studies with others is an admirable quality and many enthusiasts have dropped a line to express their appreciative. More importantly, working with Ed has taught me that great things can be accomplished in life when you care little about who gets the credit. Few men have made such a lasting impression.

Thank you Ed for your dedication and enthusiasm. You will be greatly missed…

**WR REPORTING NUMBERS - WINTER 1958**

These applied from the start of the Winter Timetable 1958, 11 September 1958 until it ended on 13 June 1959

**BY ED CHAPLIN**

D – Daily (i.e. Mon – Sat and Sun), every day of the week
FO – Friday only
MO – Monday only
MWFO – Monday, Wednesday, Friday only
Q – Runs if required, typically before and after Bank Holiday weekends
SO – Saturday only
SuO – Sunday only (including overnight and reaches destination on Monday)
SX – Saturday excepted (i.e. Mon – Fri)
TThSaO – Tuesday, Thursday & Saturday only
W – Every Weekday (i.e. Mon – Sat)
WFSuO – Wednesday, Friday & Sunday only

011 0655 SuO Bristol – Paddington
012 1145 W 1145 Bristol – Paddington
013 0715 W Plymouth – Paddington
014 0625 W Penzance – Paddington

Notes on some trains

I have noted those Paddington – West Country expresses that went via Bristol and not the direct route down via Newbury & Castle Cary.

Train 176 is the up relief to the up Cornish Riviera, and ran when required. It began at Plymouth at 1215 and ran ahead of the main train due to arrive at North Road station at 1220 from Penzance, and depart at 1230. Train 177 also only ran on 4 dates.

Train 854 was a relief to the up Cornishman, train 819. Both the up and down Cornishman had a 3 or 4 car section that was added or detached at Exeter, and ran as a semi-fast to/from Kingswear. When traffic was expected to be heavy, before and after holiday weekends, train 854 ran instead and was a full length train from Kingswear, with the ‘true’ Cornishman, 819, having extra carriages to/from Plymouth/Cornwall instead of the Kingswear portion. But due to its many stops train 854 did not become an express (with A lamps) until Exeter. The down counterpart to train 854 was train 315.
On Fridays only, as train 832 was running, train 927 was retimed to leave Paddington one minute later, at 1811.

Not all trains carried a Reporting Number throughout its journey, such as at Worcester, when a loco change occurred both up and sometimes down between there and Hereford. One exception occurs at Plymouth, the Cornishman and the Riviera when, despite a loco change, the ‘new’ loco sometimes did carry the Number both down and up between Plymouth and Penzance. A further confusion occurs when the same loco hauled the up train ex-Penzance, and later in the day, the down train ex-Plymouth, retaining the up number.

Most train numbers were unique, exceptions were when trains with the same number were not due to run on the same route.

The Saturdays Only 9.18 a.m. from Exmouth.
The masterly book by Simon Rocksborough Smith and David St.John Thomas, Summer Saturdays in the West, page 100 shows – “According to the SR public timetable the 9.18 Exmouth terminated at Exeter Central; the WR advertised it as a through train to Manchester from Exeter St. David’s. The Hall normally took over from an SR tank engine at Exeter Central.” From the detail in that book, which focuses on a date that has become famous as a result of its in-depth analysis of a very busy day, 27 July 1957, we find the Hall was Exeter’s own 4948 Northwick Hall, the train number carried was 223, and by the time it reached Uphill Jc on this hectic Saturday it was 18 minutes late.

The equally fine book by Richard Woodley, The Day of the Holiday Express, focuses on 9 July 1960 and page 25 shows – “Passengers ought to have been spared the more inconvenient features of inter-regional rivalry, but this was not always the case. Only one Saturday service from the West of England originated on the SR before joining the WR traffic flow up from Exeter. This was the 9.18 a.m. Exmouth – Manchester, a nice through service which ran year after year. But as far as the Western Region was concerned, this train was known as the 10.4 a.m. from Exeter St. David’s, with no mention of its true origin in the timetable. No hint of the useful service it could provide was shown on any poster advertising. Compared with this facility there was nothing available for Exmouth passengers off the WR in the opposite direction. They either had to change at both St. David’s and Central, or at St. David’s and Starcross, followed by a 15 minute ferry trip across the estuary. For the northbound journey 4942 Maindy Hall went up light engine to Central (in reverse) on 9 July and took over the train from Exmouth there, then ran well on its working right through to Shrewsbury arriving 4 minutes late at around 3.50 pm.”

For many years, I and others have been fascinated by this train and have collected several photographs and done research ourselves. The ‘earliest’ photo I have seen or possess is that 6959, then of 81A, on that train and such others as tabulated below. Photos seen in books are noted, otherwise I have the photos.

In the early 50’s the train number was 575. It was changed for Summer 55, to 223. Finally as from 13.6.60 when the 4 digit system was introduced by BR nationally with the first being train type, 1 for express, 2 for semi-fast, 3 for parcels, ECS etc, it became 1M90. And 12 years after nationalisation, such a system applied across all regions.

</table>
NOTE – Derek Frost informs me ‘70024/28/29 had been on loan to the SR working from Exmouth Junction as substitutes for their Merchant Navy Pacifics, withdrawn after examination following an incident at Crewkerne involving 35020 on 24.4.53. By the end of June the MNs were back in traffic.’ On this date, 70029 was being returned to its home shed of Canton, by hauling this Exmouth – Manchester train, perhaps as usual to Shrewsbury; from where it would return to Cardiff Canton on a usual duty.
